#### **SPILL: 16-1833, Sewage Spill, Bishop Paiute Tribal Lands, Inyo County**

- On 03/24/16 at 1927 hours the California State Warning Center (CSWC) received a report from the Bishop Paiute Tribe in Inyo County of a sewage release, estimated at greater than 10,000 gallons with an unknown amount into Bishop Creek.
- This release was caused by a blockage in a mainline on tribal lands adjacent to Bishop City. The flow of the release into Bishop Creek has stopped.
- The Bishop Paiute Public Works Department will be conducting cleanup of the release with crews on scene attempting to clear the blockage, which is being assisted by a local vacuum truck.
- A trail leading from the Reservation to a school will be blocked off and signs posted due to the release, with an unknown time of re-opening. The Tribe advised there is apparently no impact to local drinking water by the release.
- Per Cal OES SDO, Inyo County Environmental Health inspected the site and advised that the Tribe appeared to have adequate resources on-site to conduct the cleanup and repairs.
- The Regional Water Quality Control Board's Drinking Water Program Duty Officer, advised that there was no impact to drinking water supplies
- No requests for State assistance at this time.
- Cal OES SDO and Tribal Liaison continues to monitor. This will be the final report for this incident unless circumstanced warrant an update.

# **SITUATION SUMMARY**

## **Weather of Concern**

### **Northern California**

- Cooler conditions beginning on Sunday and locally gusty winds at times. Precipitation is initially expected to remain to the north and east of the San Francisco bay area, but scattered showers may develop by the middle of next week.
- Snow will be possible with much colder temperatures for Monday that will continue through midweek.

### **Southern California**

- For portions of San Luis Obispo County, blowing sand and dust is forecasted to occur between 11 am and 7 pm each day through Sunday. Exposure to particle pollution can cause serious health problems.
- Gusty northeast winds in the Los Angeles Mountains until Saturday afternoon, 20 to 30 mph with gusts to 45 mph.
- A low pressure system will bring cooling and small chances for mainly light showers for Monday night into Thursday.

### **Cal EOC Incident – 2014 Drought**

SOC / Inland REOC remains activated in support of 2014 Drought.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Medford Weather:**

A warm front will move inland today and bring wet weather. A cold front will then move inland during the evening and night, bringing showers to the area and lowering snow levels. On Sunday, an upper low will drop down into the Pacific Northwest. This upper low will gradually shift south-southeastward Sunday night and Monday. With the low, expect a showery and colder pattern to develop across the area Sunday and Monday.

#### **Eureka Weather:**

A weak warm front will bring some light rain or drizzle to the coast today. Temperatures will cool Sunday into early next week as an upper trough slides overhead. This will be followed by stronger high pressure late next week for a period of pleasant weather.

#### **Reno Weather:**

A quiet day is expected today before a cold upper low begins to approach the area Sunday. Winds will increase Sunday afternoon with a strong cold front moving through Monday morning. Bands of snow are possible with the front with much colder temperatures for Monday that will continue through midweek.

#### **San Francisco Weather:**

Little change is forecast through Saturday. Dry weather will continue, along with slightly warmer than normal temperatures, except for near the coast. An upper level low pressure trough will drop south into the western United States from Sunday into the early part of next week. This will result in cooler conditions beginning on Sunday and locally gusty winds at times. Precipitation is initially expected to remain to the north and east of the San Francisco bay area, but scattered showers may develop by the middle of next week.

#### **Sacramento Weather:**

Dry today, with a cool weather system bringing some showers to northern California on Sunday but mainly over the mountains and foothills with a slight chance of thunderstorms eastern Sacramento valley. Mountain shower threat continues through mid week with minor snow impacts expected over the Sierra. Dry with warmer temperatures the end of next week.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Hanford Weather:**

High pressure will continue to provide dry weather and above normal temperatures through the weekend. Temperatures will cool to a little below normal early next week with a chance for light showers mainly over the Sierra Nevada.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure and gusty offshore winds will bring above normal temperatures to the area today. Next week a low will move in with more clouds and cooler temperatures. On Friday a high will replace the low for a slow warming trend and decreasing cloudiness.

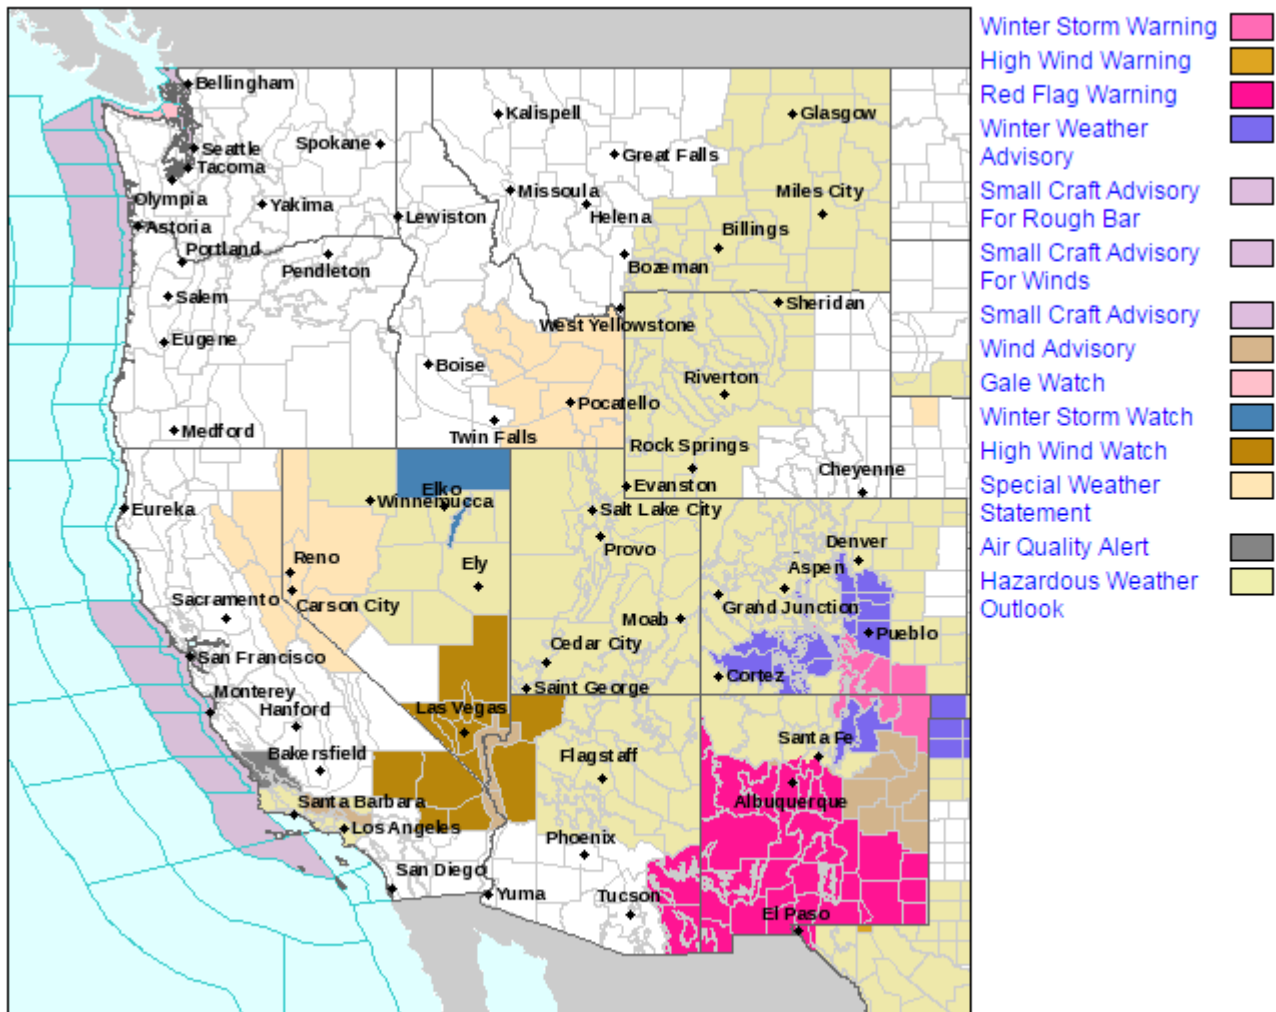

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

Through Monday, the return and deepening of the marine layer will be interrupted briefly today with a period of offshore flow with gusty northeast winds near the coastal foothills, strongest below the Cajon Pass. A low pressure system moving southward into the southwest states will bring much stronger onshore flow for Monday into Tuesday with strong gusty west winds for the mountains and deserts for Monday afternoon into early Tuesday with strongest gusts to around 70 mph. That low pressure system will bring cooling and small chances for mainly light showers for Monday night into Thursday. Warmer and dry towards the end of the week as the low pressure system weakens and moves east.

#### **Southeast California Weather:**

Breezy north winds and a slight cool down are in store today. A brief recovery in temperatures and calmer winds is expected Sunday before unsettled weather kicks back in for the work week with gusty winds for much of the area and shower chances for the southern great basin.

# **CAL OES 2014 DROUGHT**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

## **Cal EOC Incident – 2014 Drought**

### **Local Emergency Proclamations:**

**A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:**

- 27 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

# CAL OES MISSIONS

## Closed Cal OES Law Missions

**2016-LAW-22067, 3/24/16, 1830 hours:** A Riverside man who was boating with his four children Sunday, 03/20/16, at Riverside's Lake Perris Recreational Area disappeared into the water after rescuing his 8-year-old son who had fallen overboard. The Riverside County Sheriff's Department dive team has continued to search for the victim. The lake's size, murky waters and uncertainty about where the victim drowned is making the search difficult. The surface area of Lake Perris is about 2,000 acres with a circumference of 12 miles and 65 feet deep. Riverside Sheriff's Department is requesting a K9 Water Cadaver dog to assist with searching and recovering the victim's body on Friday, 03/25/16. CA OES K9 Coordinator located an available SAR K9 Water Cadaver team from Los Angeles who will assist on this mission. **Update:** At 1830 hours on 03/25/16, Riverside Sheriff's notified the LDO that the search had been completed with negative results. All resources were released with no further assistance needed. **Mission Closed.**

# California Specialized Training Institute

## CSTI Scheduled Training

Centers for Disease Control and Prevention  
CDC 24/7: Saving Lives, Protecting People™

## CSTI on the web

### **Environmental Health Training in Emergency Response (EHTER)**

This new course trains participants to identify problems, hazards, and risks; plan for team response; select appropriate equipment and instrumentation; perform required tasks using environmental health response protocols; and report and participate in follow-up activities as instructed. Most of the course involves hands-on operation practice and response to simulated events. [Course Information](#)

### **Target Audience/Disciplines**

- Individuals currently serving as Environmental Health Responders assigned to a local, State, Territorial, or Tribal Emergency Response Team, performing environmental health tasks in emergencies and disasters.
- FEMA covers all training costs (travel, lodging, and meals) for state, local, and tribal responders taking the course.
